

## SUBROGATION

Decades of strategic case development and trial experience.

WSHB is a litigation firm with decades of experience and knowledge across many different practice areas. This allows the firm to accurately assess and effectively prosecute a wide variety of subrogation and recovery claims. Early and accurate claim assessment is the first step to achieving optimal results. This means being available 24 hours a day to gather real time information about the loss. This also means teaming with our wide network of forensic experts to gather and preserve facts and evidence critical to achieving a successful result. Our attorneys are ready and able to serve our clients on immediate notice nationwide.

As a firm, we have tried more than 900 cases to verdict with a 90% success rate. It is this experience as trial lawyers, combined with our expertise in a wide range of practice areas, that allows us to resolve cases faster and on more favorable terms. We aggressively prosecute each claim to yield the best result for our clients.

We pursue a wide variety of claims including those arising from:

- Accidental damage
- Business interruption
- Construction
- Contamination
- Delay
- Energy
- Explosions
- Fires
- Goods in transit
- Medical instruments
- Mold
- Pollution
- Products
- Subsidence
- Vehicle impact
